Paper 1

May/June 2012

1 hour 45 minutes

Candidates answer on the Question Paper.

Additional Materials: Ruler

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name in the spaces provided.

Write in dark blue or black pen.

You may use a soft pencil for any diagrams, graphs or rough working.

Do not use staples, paper clips, highlighters, glue or correction fluid.

DO **NOT** WRITE ON ANY BARCODES.

Write your answer to each question in the space provided.

If additional space is required, you should use the lined page at the end of this booklet. The question number(s) must be clearly shown.

Answer **three** questions.

The Insert contains Photographs A, B, C and D for Question 2, and Photograph E for Question 5.

The Insert is **not** required by the Examiner.

Sketch maps and diagrams should be drawn whenever they serve to illustrate an answer.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [] at the end of each question or part question.

| For Examiner's Use | |

This document consists of **25** printed pages, **3** blank pages and **1** Insert.

QUESTION 1

1 (a) Study Fig. 1, which shows information about the population in four countries.

| | Country | Total population (millions) | Birth Rate (per 1000) | Death Rate (per 1000) | Net Migration (per 1000) | Life Expectancy (years) |
|-------|----------|-----------------------------|-----------------------|-----------------------|--------------------------|-------------------------|
| MEDCs | Germany | 82 | 8.2 | 11.0 | +2.19 | 79 |
| | Spain | 41 | 9.5 | 10.1 | +0.99 | 80 |
| LEDCs | Ethiopia | 88 | 43.4 | 11.3 | -0.02 | 56 |
| | Ghana | 24 | 28.1 | 8.9 | +0.61 | 61 |

Fig. 1

(i) Which **one** of the countries shown in Fig. 1 has the smallest total population?

.....

[1]

(ii) Calculate the natural population growth rate of Ghana.
Show your calculations below.

[2]

(iii) Identify from Fig. 1 the country where:

A people live the longest on average;

B the total population is increasing most rapidly;

C there is more emigration than immigration. [3]

QUESTION 2

2 (a) Study Photographs A, B , C and D (Insert), which show land use zones in an urban area.

(i) Describe **two** differences between the housing in Photographs B and C.

1

.....

2

..... [2]

(ii) Redevelopment is replacing old buildings with new ones.
Identify the photograph which shows redevelopment taking place.

Photograph [1]

(iii) Give **three** different reasons why redevelopment has taken place in many urban areas.

1

.....

2

.....

3

..... [3]

(iv) Explain why redevelopment in urban areas may cause conflict.

.....

.....

.....

.....

.....

.....

.....

.....

..... [4]

(b) Study Fig. 3, a model of urban land use.

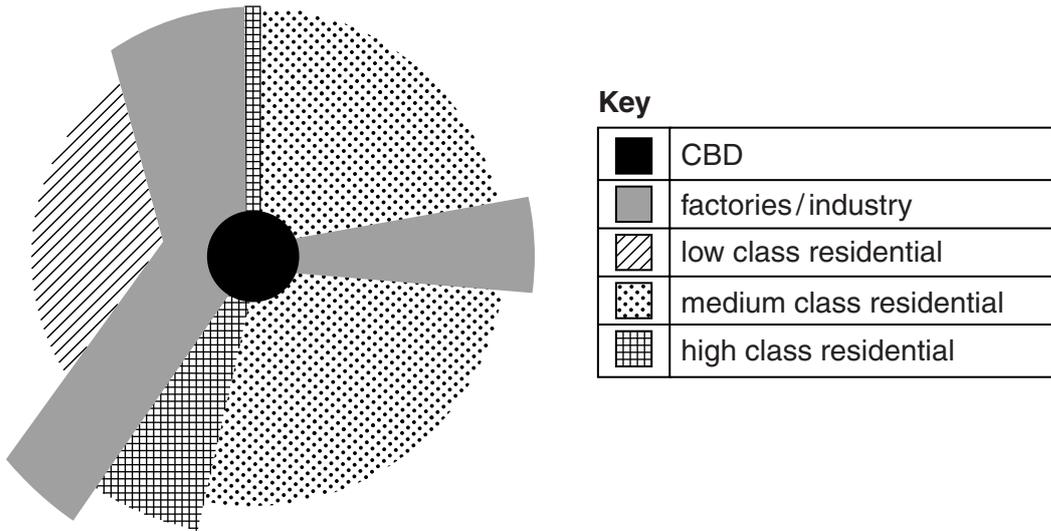

Fig. 3

(i) Describe and suggest reasons for the location of the industrial zone.

.....
.....
.....
.....
.....
.....
..... [3]

(ii) How relevant do you think the model shown in Fig. 3 is for describing urban land use? Explain your answer by referring to LEDCs and MEDCs.

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
..... [5]

QUESTION 3

3 (a) Study Fig. 4, a map showing the drainage basin of the River Lee.

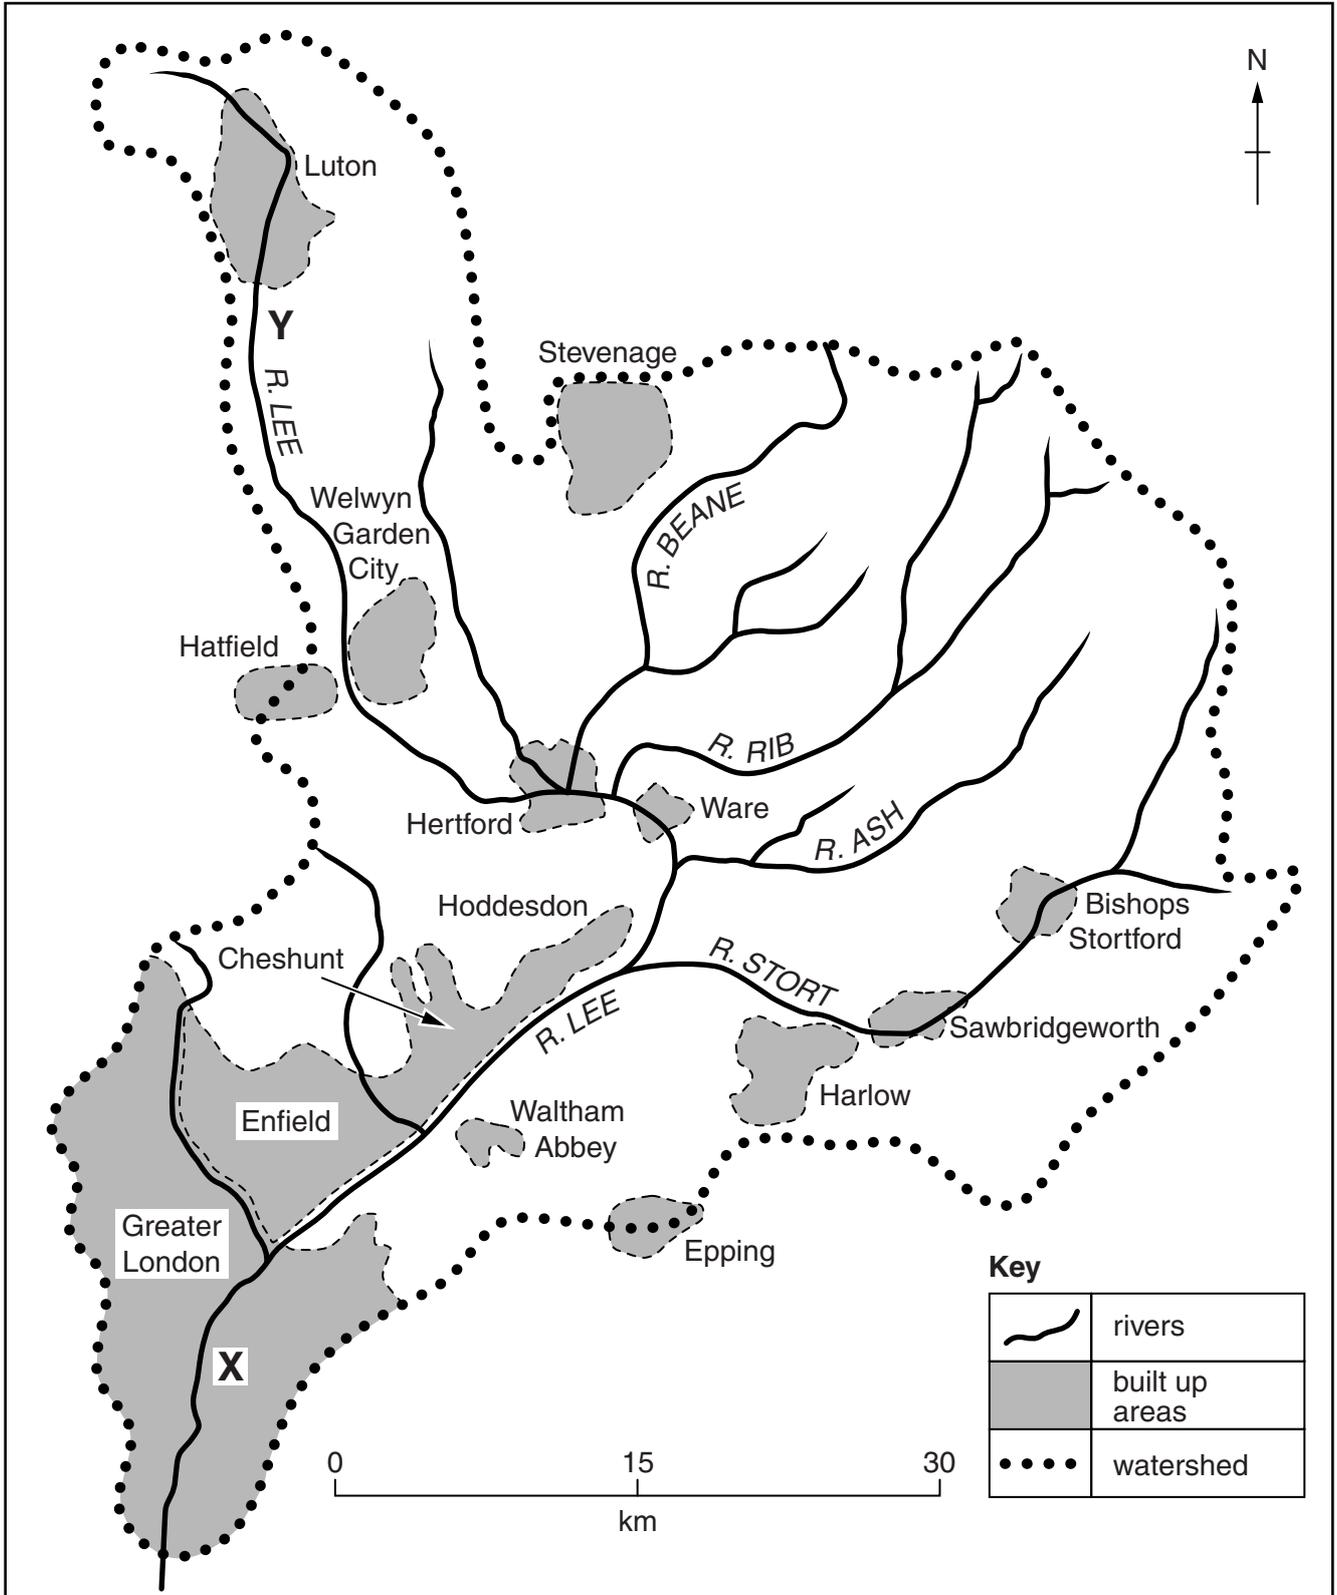

Fig. 4

(i) Name a tributary of the River Lee.

.....

[1]

(ii) Give **two** reasons why the amount of water in the river is greater at **X** than **Y**.

1

.....

2

.....[2]

(iii) Suggest **three** likely differences between the shape of the river **valley** at **X** and at **Y**.

1

.....

2

.....

3

.....[3]

(iv) Explain how the River Lee might bring both benefits and problems for people who live in Hertford.

.....

.....

.....

.....

.....

.....

.....

.....[4]

(b) Study Fig. 5, a diagram showing a waterfall and gorge.

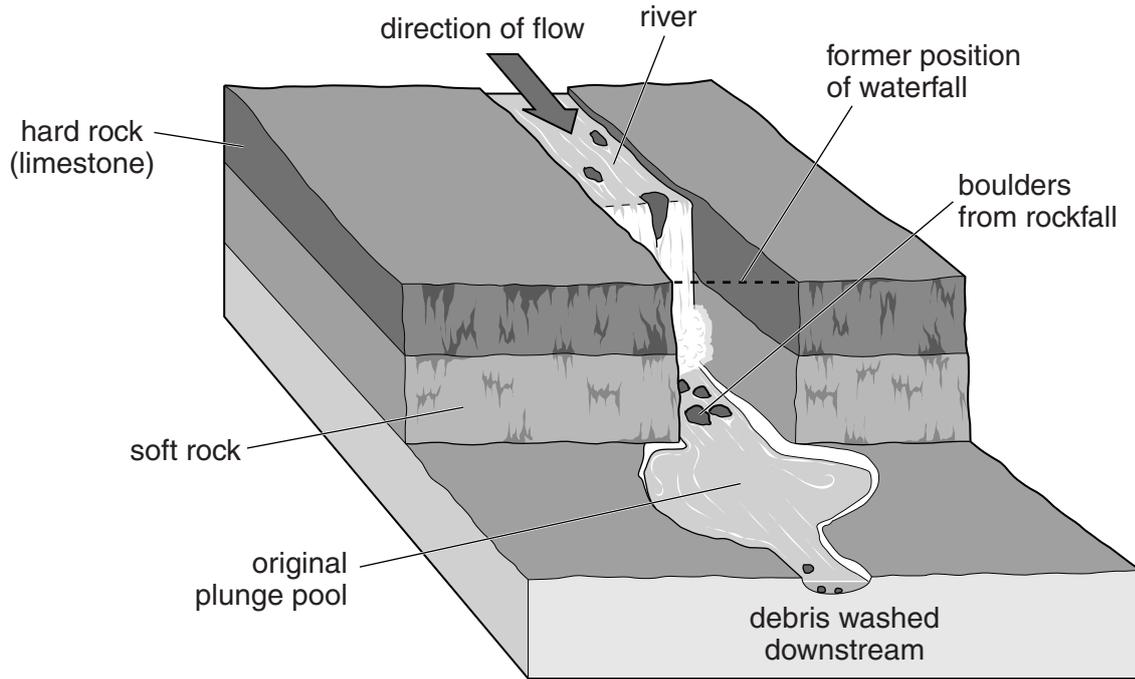

Fig. 5

(i) The river is eroding by hydraulic action, corrasion (abrasion) and corrosion. Define each of these terms.

Hydraulic action

.....

.....

Corrasion (abrasion)

.....

.....

Corrosion

.....

..... [3]

(c) Explain how an oxbow lake is formed. You should include fully labelled diagram(s).

*For
Examiner's
Use*

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

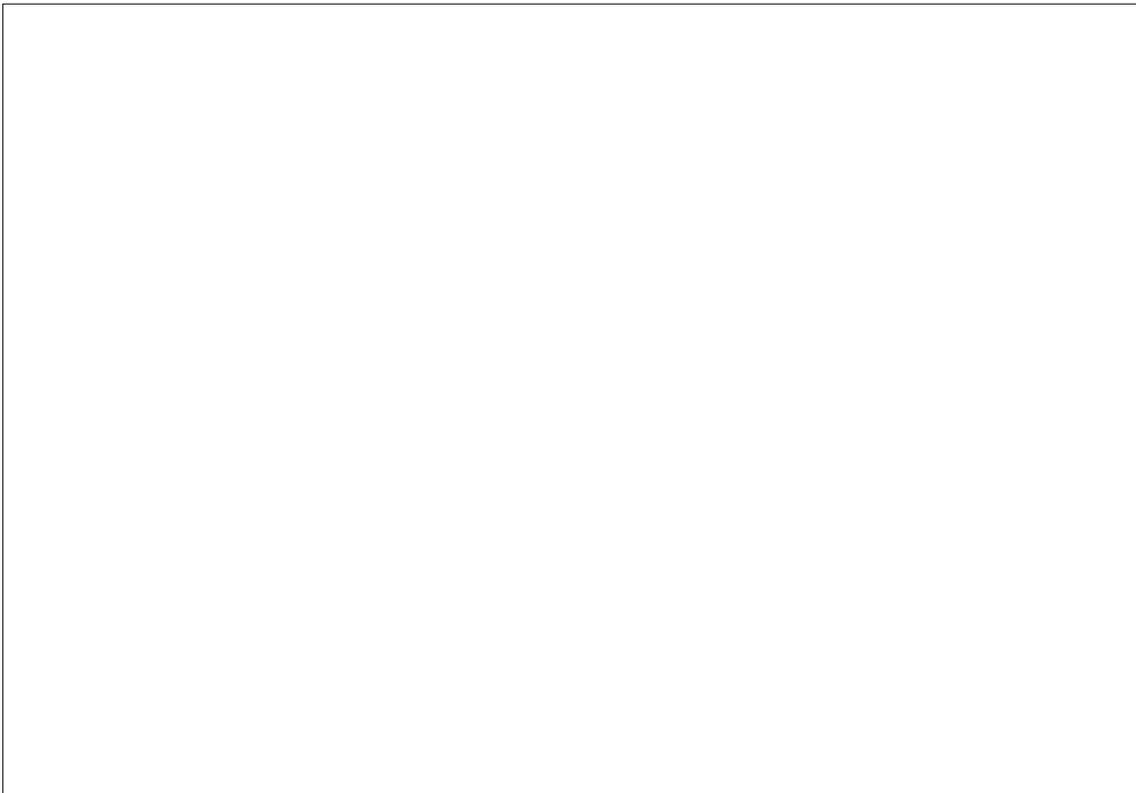

.....

.....

.....

.....

.....

[7]

END OF QUESTION 3

QUESTION 4

For
Examiner's
Use

4 (a) Study Fig. 6, which shows major plates and the location of fold mountains.

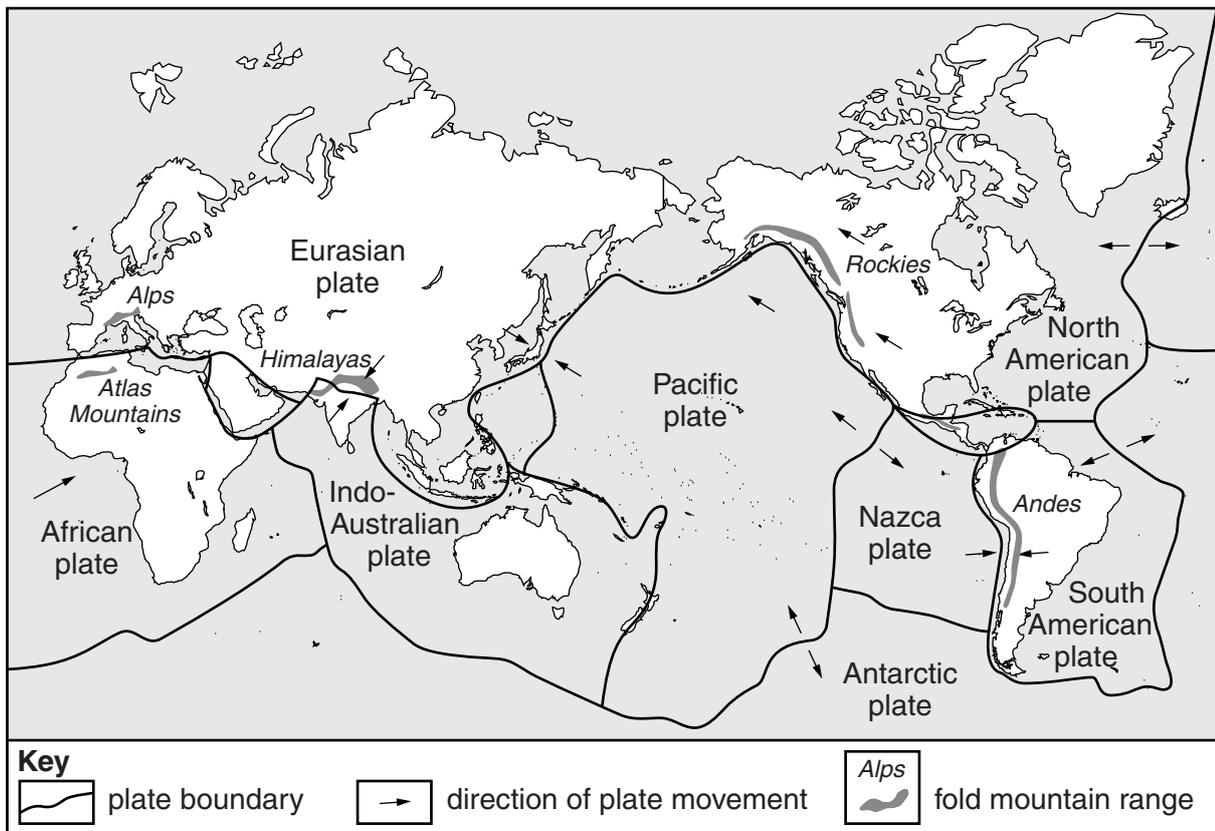

Fig. 6

(i) Use Fig. 6 to identify the fold mountains which are along the boundary between the Eurasian and Indo-Australian plates.

..... [1]

(ii) Explain how fold mountains have been formed along this collision boundary.

.....

 [2]

(iii) Name the type of plate boundary between the following plates:

A Nazca plate and South American plate;

B Antarctic plate and Pacific plate;

C North American plate and Pacific plate. [3]

BLANK PAGE

TURN OVER FOR QUESTION 5

QUESTION 5

5 (a) Study Fig. 8, information about the climate of the Maldives (a tourist destination in the Indian Ocean).

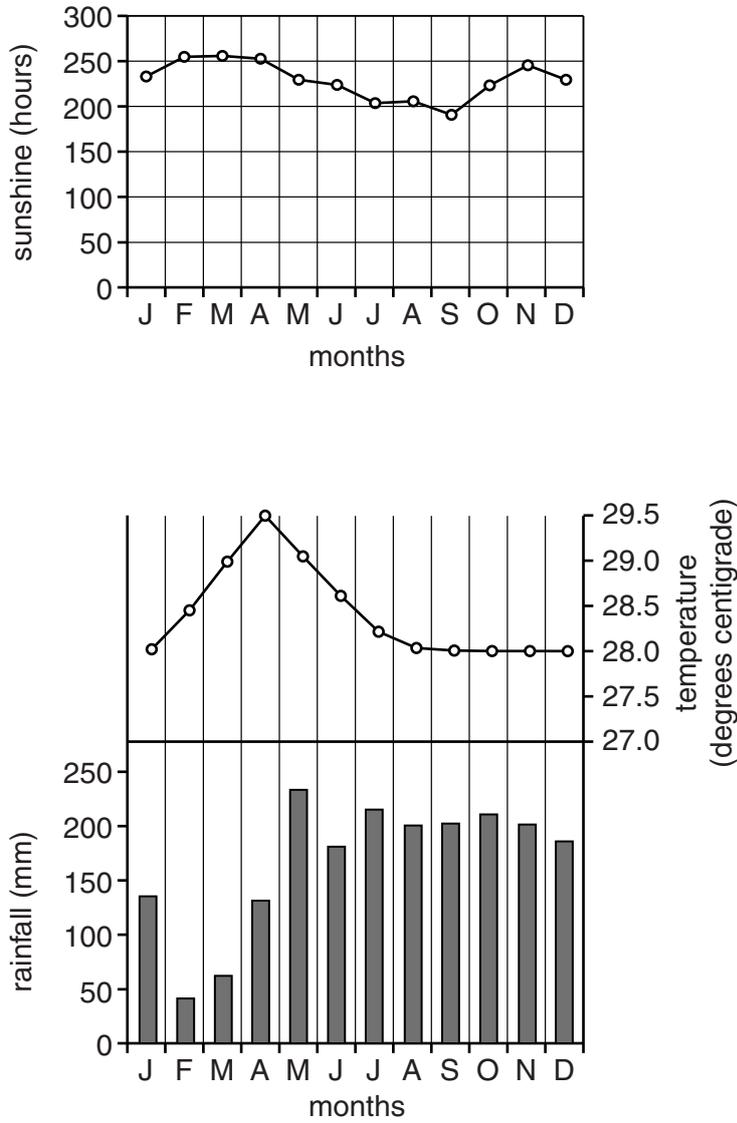

Fig. 8

(i) Identify the month which has the lowest rainfall.

.....

[1]

- (ii) What is the annual range of temperature?
Show your calculations below.

[2]

- (iii) Use **only** the information in Fig. 8 to explain why tourists are attracted to the Maldives all year round.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[3]

- (iv) Study Photograph E (Insert) which was taken in the Maldives.
Using **only** evidence from the photograph, explain why many tourists find such destinations attractive.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[4]

QUESTION 6

6 (a) Study Fig. 10, information about an area where the land is used for commercial farming around the village of Canicatti in Sicily. (Sicily is part of Italy, an MEDC).

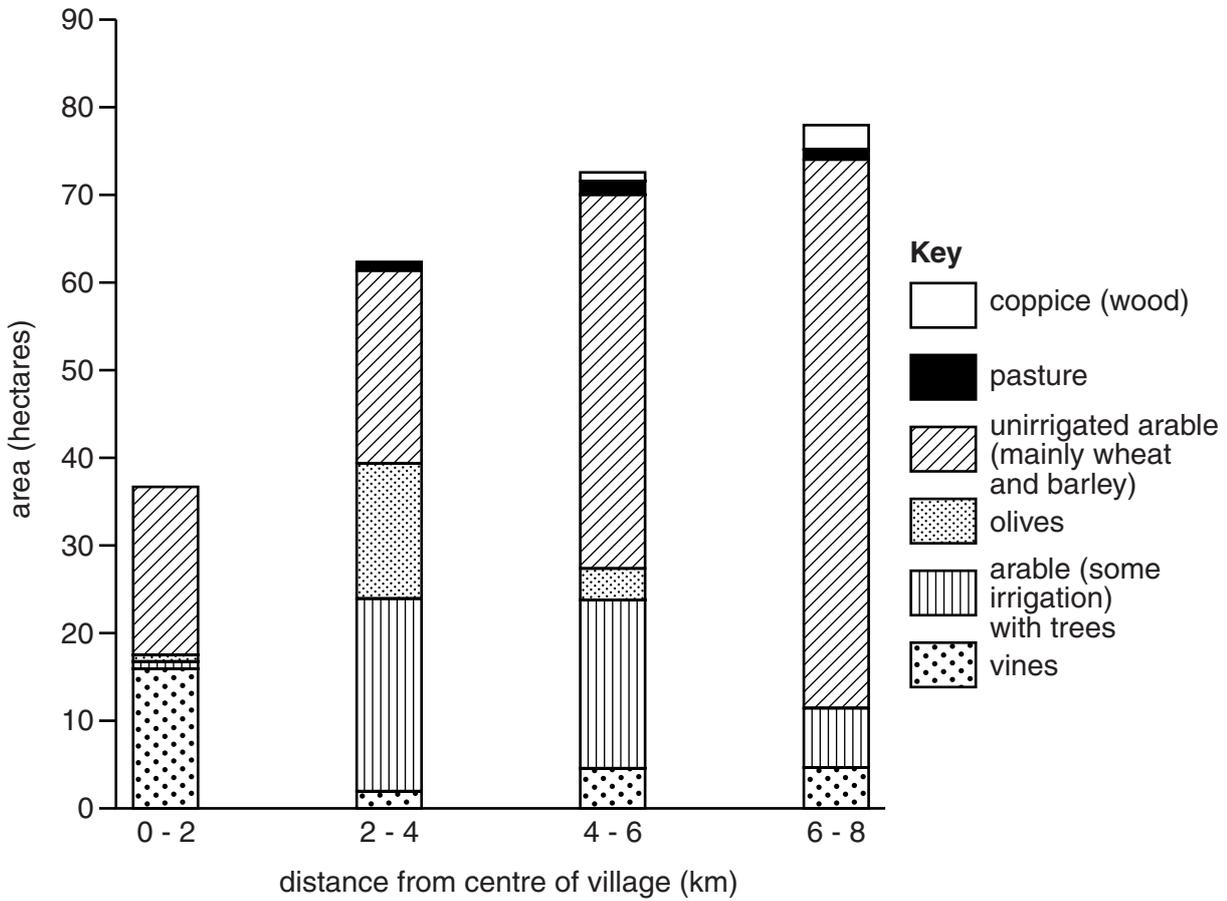

Fig. 10

(i) What is meant by *commercial* farming?

.....
 [1]

(ii) Describe **two** differences between the land use between 0 and 2 kilometres from the centre of the village and between 6 and 8 kilometres from the centre of the village.

1

 2
 [2]

(iii) Using examples from Fig. 10, suggest reasons to explain why a farmer may use the land in different ways as distance from the village increases.

For
Examiner's
Use

.....
.....
.....
.....
.....
.....
.....[3]

(iv) Give **four** examples of physical factors which affect how farmers use their land.

1
.....
2
.....
3
.....
4
.....[4]

(b) Study Fig. 11, which shows an area in an MEDC where commercial farming is taking place.

For
Examiner's
Use

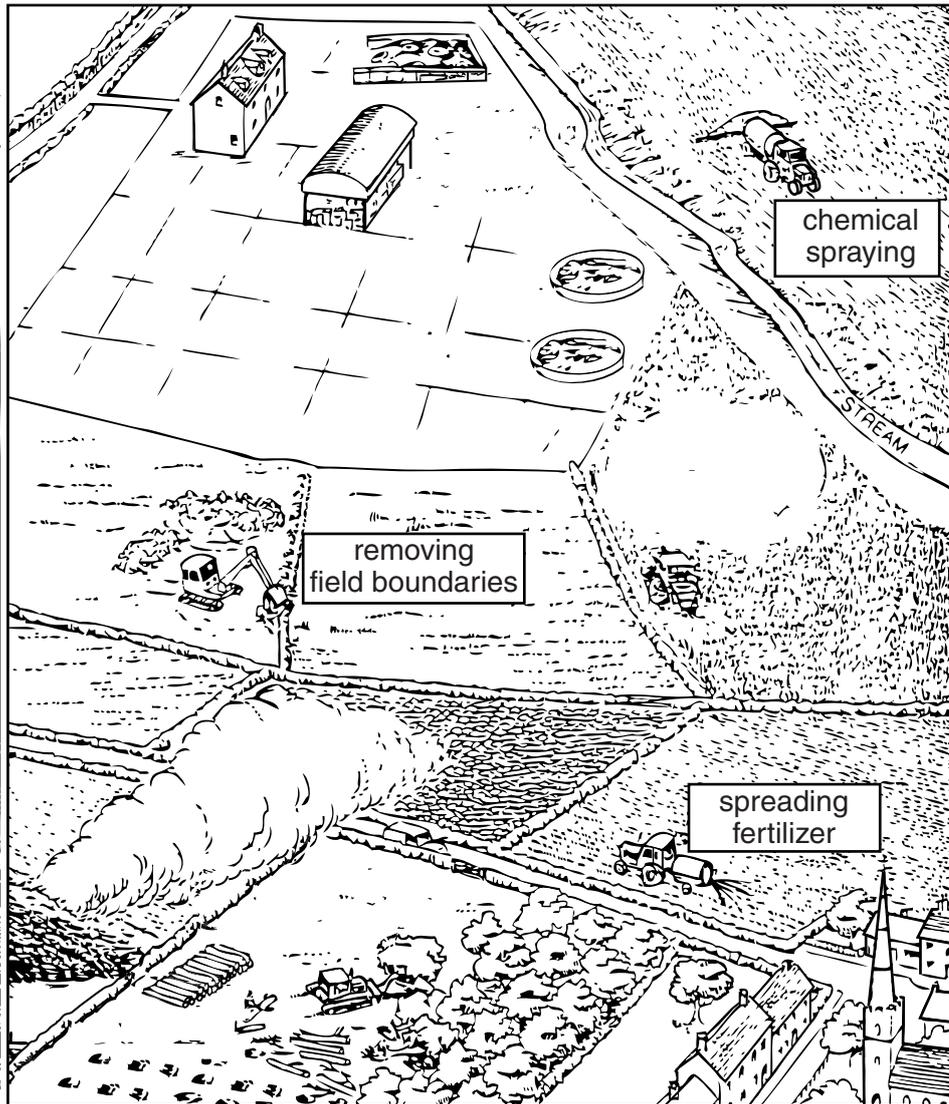

Fig. 11

(i) Explain why farmers carry out each of the three activities which are labelled on Fig. 11.

Removing field boundaries

.....
.....

Chemical spraying

.....
.....

Spreading fertilizer

.....
.....
