Core and Periphery

Time-Space Convergence

travel time difference = TSC
 Time difference

TSC - this is when travel time between places decreases and distance declines in terms of it's significance. It is generally brought about by transport innovations and improvements

globalisation
prices, spatial innovations

transport
spatial innovations

human trafficking

outsourcing
power, political decisions, policies

Apple/Facebook

trade
 NAFTA
 ASEAN
 EU

disruption of transport
 → air, sea, rail, road

MGOs
prices, innovations

UN, IMF, World Bank, etc.

customers

Distance - Speed Curve
Speed of innovation, 1920s
